

Statement Concerning Natural Rubber Latex

To whom it may concern:

Contact with medical devices containing natural rubber has been associated with anaphylaxis in individuals allergic to natural rubber latex proteins. As such, medical device regulations require devices composed of or containing natural rubber latex to be labeled as such.

Nuprep[®] Skin Prep Gel and Ten20[®] Conductive Paste are Class II medical device products manufactured by Weaver and Company and regulated by the United States Food and Drug Administration. These products:

- **Are not made with natural rubber latex** in either the product ingredients or the packaging; and
- **Do not come in contact with any natural rubber latex** throughout the manufacturing process.
