Sold as a 3-pack
ITEM #10-20-4T

Single-Use Cups

Sold as a 24-pack
ITEM #10-20-1

About Ten20 Conductive

Ten20 Conductive is an easy-to-use, adhesive, conductive paste designed to hold EEG electrodes in place, thereby eliminating disruptions of reattaching the electrodes during neurodiagnostic examinations.

Expert technologists and technicians around the world rely on the optimal balance of adhesiveness and conductivity of Ten20 Conductive Paste to achieve quality test results.

Ten20 Conductive Paste's washable, non-drying formula makes for a very easy clean up.

Target Markets

- EEG Examinations ●
- Sleep Diagnostics ●
- Evoked Potential Procedures ●
- Audiology ●
- Biofeedback ●
